Diversity and Integration from West to East

04 July 2022 - 29 July 2022

Course 1: European Politics and Economy

About

The aim of this course is to introduce cultural, economic, and political distinctive features and historical phenomena of Europe, a continent of great geographical and cultural diversity and of many identities. Europe has hosted different political cultures and *diversity* is a key-word to understand what Europe has meant and means from a continental and global perspective.

Besides diversity, another key-word that can be associated with Europe is *integration*. In modern time, the idea of Europe as a space with common rules and a shared government emerged firstly after World War I and the first multilateral institutions were established after World War II. Along the decades, political, geopolitical, and economic tensions have challenges and slowed down the integration process, but they also highlight its importance.

This course provides you with a solid foundation for understanding major aspects of European institutes, cooperation initiatives, and crisis. Seminars, lectures, and activities take you on a journey into the unfinished history of European integration and the rise and fall of European democracy.

Credits: 4.0 ECTS + Certificate of Attendance

Format

This course articulates in two versions: one designed for an online teaching-learning setting and the other one designed for face-to-face students-instructors interaction. Morning sessions are the same for both groups and afternoon activities and the excursion differ. Although different, afternoon classes proceed in parallel and cover the same topics.

The course adopts different teaching methods: live lectures, supervised digital 'fieldtrips', IRL fieldtrips, self-study, recorder sessions, and collaborative work. It makes use of different media: textual, audio, and visual materials; primary and secondary sources. Students' participation is crucial both in terms of individual preparation (e.g. readings) and reflection, engagement in sessions' Q&As, elaboration of a final assignment. This course is interactive, thus participants are invited to ask relevant historical questions, collaborate on assignments and participate in discussions about the literature and the lectures.

Location

Utrecht's ancient city centre features many buildings and structures several dating as far back as the High Middle Ages. It has been the religious centre of the Netherlands since the 8th century. It lost the status of prince-bishopric but remains the main religious centre in the country. Utrecht was the most important city in the Netherlands until the Dutch Golden Age when it was surpassed by Amsterdam as the country's cultural centre and most populous city.

Utrecht is host to Utrecht University, the largest university in the Netherlands, as well as several other institutions of higher education. Due to its central position within the country, it is an important transport hub for both rail and road transport. It has the second-highest number of cultural events in the Netherlands, after Amsterdam.

Assessment

There will be three assessments that test the acquisition of knowledge, your engagement with the school and your ability to reflect individually and in group.

1. Diary of the School: 30%
2. Peer-to-Peer Assessment (in Seminar #3): 20%
3. Final exam: 50%

You need an average grade of at least 5,5 to pass the course.

Attendance and Grading Criteria

Note that full attendance is expected in all lectures, seminar sessions, and excursions. Students who are absent beyond their fault (illness, accident, etc.) should submit a medical certificate to Roberta Biasillo as soon as possible. Make-up assignments are expected for all unexcused absences. Ten percentage points will be subtracted for all uncompensated absences. Students who fail more than two make-up assignments will be dropped from this course.

Your grades will be numerical grades according to the Dutch grading system. Dutch grades range from 0 (very bad) to 10 (excellent). At Utrecht University, a 5,5 is the lowest passing grade, though note that this might be different at other (Dutch) institutions. Also note that grade inflation has not affected the Dutch grading system as much as it has some American institutions. Grades of 9 and higher are rarely given, the most common grades are between 6 and 8. The Utrecht University student registration system (Osiris) that will produce your transcript will round off all grades to whole numerals for 5 and lower, and half numbers for 5.5 and higher. On course work and examinations, however, it is customary to receive a grade that has not been rounded off. Plusses and minuses are sometimes used, and count for one-fourth of a point, for instance: 8- = 7,75. Meaning of numerical grades:

9.00-10.00	Excellent
8.00-8.99	Very good
7.50-7.99	Good
7.00-7.49	Very satisfactory
6.50-6.99	Satisfactory
6.00-6.49	Sufficient
5.50-5.99	Acceptable; minimum pass
5.00-5.49	Insufficient; fail
4.00-4.99	Unsatisfactory
3.00-3.99	Very unsatisfactory
2.00-2.99	Bad
0.00-1.99	Very bad

Note that conversion of grades that you have received in the Netherlands to grades at your home institution is the responsibility of your home institution, not Utrecht University. This chart should be used as an indication; no rights can be drawn from it.
