* Remarks Computer lab

During the computer lab meetings, we will make use of software including Mplus 8.5. In case you do not have Mplus (8.5) on your own laptop, it will be available via SolisWorkspace (SWS). You can access this via your SolisID (for more information regarding the SolisID, see the pre-departure e-mail).

Manuals for using SWS are available via the following links.

General (brief): <https://students.uu.nl/en/myworkplace>

Windows (more details): <https://manuals.uu.nl/en/handleiding/myworkplace-windows-10/>

MacOS (more details): <https://manuals.uu.nl/en/handleiding/myworkplace-macos/>

Please check before the start of the course whether you can access Mplus in this way.

** Remarks Day 5 (consultation day)

On Day 5, there is a consultation day. On this day, you can apply the techniques you learned in this course to your own data.

In case you need assistance with more advanced techniques, you can also ask for help on this, but priority will be given to questions regarding the topics discussed during the lectures.

In case you want to learn more about advanced SEM techniques, you can

- Depending on the techniques you like to apply, sign up for our Utrecht Summer School course 'Advance course on using Mplus' (course code S23).
- Ask for (paid) consultation from someone of the M&S department. In that case, please contact Mirjam Moerbeek (M.Moerbeek@uu.nl). Note that we cannot guarantee that someone will be available.
